High school in the United States Even after public schools were being opened up to all High school or senior high school is the education students receive in the final stage of secondary education in the United States. The name high school is applied in other countries, but no universal generalization can be made as to the age range, financial status, or ability level of the pupils accepted. In the United States, most high schoolers are ages 14–18, but some ages could be delayed due to how their birthday coincides with the academic calendar. Most comparable to secondary schools, high schools generally deliver phase three of the ISCED model of education. worked on farms and few rural Southerners of either race went beyond the 8th grade until after 1945. In North America, most high schools include grades 9 through 12. Students attend them following graduation from middle school (often alternatively called junior high school). High schools have subject-based classes be586d6edc

Education in the United States 2009, US fourth and eighth graders tested above average on the Trends in International Mathematics and Science Study tests, which emphasizes traditional The United States does not have a national or federal educational system. Education is provided in public and private schools and by individuals through homeschooling. Educational standards are set at the state or territory level by the supervising organization, usually a board of regents, state department of education, state colleges, or a combination of systems. 3 trillion in funding comes from state and local governments, with federal funding accounting for about \$260 billion in 2021 compared to around \$200 billion in past years. The bulk of the \$1. Although there are more than fifty independent systems of education (one run by each state and territory, the Bureau of Indian Education, and the Department of Defense Dependents Schools), there are a number of similarities between them be586d6edc
