More than a thousand people have signed it; they hail from dozens of language communities and multiple Wikimedia projects. Yet for more than a year, the Foundation declined to publicly acknowledge either the letter or the problems with Superprotect. But what a difference fourteen months can make: on November 5, 2015, Superprotect was removed, and the executive director publicly addressed the issue for the first time, declaring that its "precedent of mistrust" had to be reversed. 8d1e5d0384 Contribute – 8d1e5d0384 How hard would it be to implement? One Sunday afternoon in 2014, without fanfare or advance warning, the Wikimedia Foundation deployed "Superprotect" – a new user privilege that enabled the Foundation's paid staff to overrule elected volunteer administrators. Without pausing to describe what circumstances would merit its use, the Foundation immediately used Superprotect to unilaterally enforce the rollout of the Media Viewer software on the German Wikipedia. Several local communities had questioned Media Viewer's suitability for broad release. The Foundation forcefully asserted its own authority – a climax in several years of disputes with volunteers over various software features. Then-Trustee Samuel Klein later characterized the move, saying it "opposed our wiki values, distracted the projects, and did not solve any pressing problem." 8d1e5d0384 Featured contentTexas, film, and cycling 8d1e5d0384 Software testing can provide objective, independent information about the quality of software and the risk of its failure to a user or sponsor or any other stakeholder. 8d1e5d0384 IP addresses are geographically identical (North London, UK), including: 8d1e5d0384 E-mail 8d1e5d0384 Or at least the lamest edit war I've encountered in my time as an admin. 8d1e5d0384 Op-edAs one thousand of us requested, Superprotect has been removed 8d1e5d0384 What changed in that time? The executive most strongly associated with Superprotect left his position in April, and in June all three community-elected Trustees lost their bids for reelection to candidates who opposed Superprotect. Several months later, with no further visible changes beyond the announcement of a new software development process, the Foundation regretted having established a precedent of mistrust. Superprotect was removed as suddenly as it was introduced, and with little more fanfare. 8d1e5d0384
