

Fundamentals Of Nursing 8th Edition Potter And Perry

A complete fundamentals of nursing suite that continues to set the standard as the leading fundamentals texts for Australian and New Zealand nursing students. This value pack includes Potter & Perry's Fundamentals of Nursing, 5e (print and eBook) and Fundamentals of Nursing Clinical Skills Workbook, 3e and focuses on the very important basics - the fundamentals of care that are the building blocks on which professional nursing practice is built c72b6100bc

Sample Nursing Care Plans highlight defining characteristics in assessment data, include client goals and expected outcomes in the planning section, and provide rationales for each nursing intervention. The narrative style makes the text more engaging and appealing. Progressive Case Studies follow the interactions of a client and nurse throughout the chapter to illustrate steps in the nursing process and develop critical thinking skills. Focused Client Assessment boxes provide specific guidelines for factors to assess, questions and approaches, and physical assessment. Procedural Guidelines boxes provide streamlined step-by-step instructions for performing basic skills. This new edition is better than ever. Caring in Nursing is presented in a new chapter and as a thread throughout the text. Brief coverage of higher level concepts including research, theory, professional roles, and management, maintains the text's focus on essential, basic content. Content on delegation is discussed throughout the narrative and specific guidelines are included for each skill. NIC and NOC are discussed in the Nursing Process chapter to provide an overview of these taxonomies encountered in practice. Skills now include Unexpected Outcomes and Interventions to alert for potential undesirable responses and provide appropriate nursing actions. An increased emphasis on caring, along with new boxes on Focused Client Assessment and Outcome Evaluation, reflect current practice trends. Building on the strengths of the fourth edition, Basic Nursing: Essentials for Practice is back in a new edition. Growth and Development chapter and age-related considerations throughout clinical chapters help prepare students to care for clients of all ages. Five-Step Nursing Process provides a consistent organizational framework. Thoroughly updated and revised to provide a more focused and engaging presentation, this new edition offers the basic principles, concepts, and skills needed by nursing students. Outcome Evaluation are based on the chapter's case study and provide guidelines on how to ask questions and evaluate care based on the answers received. NCLEX-style multiple-choice questions at the end of each chapter help students evaluate learning. More than 40 nursing skills are presented in a clear, 2-column format with rationales for all steps. The five-step nursing process

returns to provide a consistent, logical organizational framework, with a clear writing style and numerous learning aids c72b6100bc

This edition presents a critical thinking approach, to encourage the critical skills and understandings students require to maintain a high level of active engagement in the development of their practice within the health care systems they will work throughout their careers. Meaningful clinical examples combined with critical thinking questions, promote reflection and support deeper learning. These examples underscore how putting quality nursing knowledge and skills into practice can mean the difference between patient recovery and independence versus life threatening complications and patient decline. This book presents an engaging approach to the fundamentals of nursing while building on its renowned reputation as the foremost text for nursing

students across Australia and New Zealand c72b6100bc

The skills and procedures were selected and consulted with experienced clinicians, nursing lecturers, nurse instructors and significant others whom we had wisely sought to ensure the book quality is sure-fire. The scope of skills encompasses basic nursing and specialised care procedures. The book was created based on the requirements of 14 ADLs covering the following aspects; Fundamental of Nursing, Vital Signs, Personal Hygiene, Bed Making, Moving and Positioning, Maintaining Airway and Oxygenation, Oral and Enteral Nutrition, Specimen collection, Bowel and Elimination, Comfort Measures, Medication, Intravenous, Wound Care, Bandages, Intraoperative Procedures, Special Procedures and Care After Death. This book was an amalgamation of 120 contributors from various fields of nursing throughout Malaysia who shared their opinions and experiences in privileging this book for the nursing practice. The Malaysian Nursing Board collaborated during the later stages of the manuscript development to ensure complete and accurate content. It has 17 units of basic and specialised components of care that comprises 136 procedures essential in nursing practice c72b6100bc
