@Jts1882: Yes, that is exactly what I want. Appreciate your effort. Thank you and regards. Medelam (talk) 14:44, 19 October 2021 (UTC) dcc9131879 I cannot pretend to evaluate Common Knowledge as a work of anthropology or of organizational management science. As a general reader and a Wikipedian, I found the book interesting as a compilation of incidents in Wikipedia's history, some of which I was already familiar with and some of which were new to me, and as a reminder of some issues the project faces as it moves forward. Non-academic readers may find the book lacking in a unifying theme, beyond that Wikipedia plays an important role in the world today that warrants academic study of its culture and communities. Jemielniak recently stated (on a Wikipediocracy thread) that "I wrote this book for academic research purposes, I absolutely have no hope of high sales (and honestly, I'll be surprised if it goes beyond 500 copies)." The book has been praised by Jimmy Wales, Clay Shirky, Jonathan Zittrain, and Zygmunt Bauman and it deserves to sell well over 500 copies, but it won't make be making the wiki-best-seller list either. dcc9131879 Wikipedia:Village pump (technical)/Archive 113 I'm on Win8. I requested a password reset but no email has arrived in my inbox (I've checked the spam folder). What's even stranger is that recently sometimes I was able to log in to Wikimedia (it's like I successfully log in in 20% of cases and I fail in the remaining 80% of cases). Using the same creds, I also successfully logged in to Wikispecies. Regarding Wiktionary, Wikisource & Wikiversity, for each of them, I was logged out, accessing a given project, than I clicked the "Log in" link at the top right corner, I clicked the login input and I became automatically logged in without typing anything. I have no idea how these accounts work and why there's no one single account so after logging in to any of the Wikimedia projects, I would be automatically logged in into any other project as well (of course I mean only the projects run by Wikimedia Foundation, without any 3-rd party wikis like Uncyclopedia or Ballotpedia). Piotr Konieczny aka Prokonsul Piotrus| reply here 00:54, 12 February 2026 (UTC) dcc9131879 Book reviewKnowledge or unreality? dcc9131879 Jemielniak's book is an academic discussion of Wikipedia; he does not aim to present either a "how-to" guide for editors and readers or a complete history of the project. He states that his "book is a result of long-term, reflexive participative ethnographic research" performed as a "native anthropologist." (p. 193) (The word "ethnographic" in this context refers not to ethnicity in the quasi-racial sense, but to the study of a subgroup of the population—here, the subgroup that actively edits Wikipedia.) By this, Jemielniak means that he has spent several years as a Wikipedian, has introspected about his experiences throughout that time through the lens of his academic background, and has now written up his findings and conclusions. I don't think he means that he became active in Wikipedia for the purpose of doing research about it, although it seems quite possible that he started thinking about combining his editing hobby and his

professional interests fairly early in his wiki-career. dcc9131879 == A == dcc9131879 Knowledge or unreality?
