At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied. So who do you send to force introductions with unknown and unknowable alien intellect that doesn't wish to be met. Pray they can be trusted with the fate of a world. You send a monster to command them all, an extinct hominid predator once called vampire, recalled from the grave with the voodoo of recombinant genetics and the blood of sociopaths. You send a biologist so radically interfaced with machinery that he sees x-rays and tastes ultrasound. It's talking to some distant star, perhaps. They may be more alien than the thing they've been sent to find. You send a linguist with multiple personalities, her brain surgically partitioned into separate, sentient processing cores. And you send a synthesist—an informational topologist with half his mind gone—as an interface between here and there. You send a pacifist warrior in the faint hope she won't be needed. Hugo and Shirley Jackson award-winning Peter Watts stands on the cutting edge of hard SF with his acclaimed novel, Blindsight Two months since the stars fell. Or perhaps to something closer, something en route. Now some half-derelict space probe, sparking fitfully past Neptune's orbit, hears a whisper from the edge of the solar system: a faint signal sweeping the cosmos like a lighthouse beam. Two months of silence, while a world held its breath. Whatever's out there isn't talking to us dffb0538f4

Lerer takes his subject seriously without making it dull. Children's Literature charts the makings of the Western literary imagination from Aesop's fables to Mother Goose, from Alice's Adventures in Wonderland to Peter Pan, from Where the Wild Things Are to Harry Potter. "—Library Journal (starred review) "Lerer's history reminds us of the wealth of literature written during the past 2,600 years. A brilliant series of readings. Children's Literature is an exhilarating quest across centuries, continents, and genres to discover how, and why, we first fall in love with the written word. Scholarly, erudite, and all but exhaustive, it is also entertaining and accessible. R. R. Tolkien, Dr. Unlike the many handbooks to children's literature that synopsise, evaluate, or otherwise guide adults in the selection of materials for children, this work presents a true critical history of the genre. With his vast and multidimensional knowledge of literature, he underscores the vital role it plays in forming a child's imagination. We are made, he suggests, by the books we read. Ever since children have learned to read, there has been children's literature. Seuss, Laura Ingalls Wilder, Beatrix Potter, and many others, despite their divergent styles and subject matter, have all resonated with generations of readers. From Benjamin Franklin's newspaper hoax that faked the death of his rival to Abbie Hoffman's attempt to levitate the Pentagon, pranksters, hoaxers, and con artists have caused confusion, disorder, and laughter in Western society for centuries. In the 1990s, Sub Pop Records then-receptionist Megan Jasper satirized the commodification of alternative music culture by pranking the New York Times into reporting on her fake lexicon of "grunge speak. Barnum, Jonathan Swift, WITCH, The Yes Men, and Stephen Colbert, Kembrew McLeod shows how staged spectacles that balance the serious and humorous can spark important public conversations. Written in an accessible, story-driven style, Pranksters reveals how mischief makers have left their shocking, entertaining, and educational mark on modern political and social life. Profiling the most notorious mischief makers from the 1600s to the present day, Pranksters explores how "pranks" are part of a long tradition of speaking truth to power and social critique. " Throughout this book, McLeod shows how pranks interrupt the daily flow of approved information and news, using humor to underscore larger, pointed truths. For example, in the 1960s, self-proclaimed "professional hoaxer" Alan Abel lampooned America's hypocritical sexual mores by using conservative rhetoric to fool the news media into covering a satirical organization that advocated clothing naked animals.
