

Software Testing An Istqb Bcs Certified Tester Foundation Guide 3rd Ed

3. Find Defects/Bugs in software • Software testing detects the defects/bugs in software . Fixing those defects improves the quality of software . By doing root cause analysis of defects found by testing, improves the software development process

What is CTFL

Software Testing is a process that consists of all test life cycle activities like static and dynamic testing, planning, preparation and evaluation of software products to determine that the software products satisfy customers requirements and are fit for customers use.

Subtitles and closed captions

Conclusion To conclude, in this session we learned . What is Software Testing • ISTQB definition of Software Testing • Detailed explanation of Software Testing
