Mathematical anxiety Mathematical anxiety is often linked to testing anxiety, and can cause overall distress, along with dislike and avoidance of math-related tasks. A large portion of this capacity is dedicated to problem-solving when solving mathematical tasks. It is a phenomenon that is often considered when examining students' problems in mathematics. However, in individuals with math anxiety Mathematical anxiety, also known as math phobia and math anxiety, is a feeling of tension and anxiety that interferes with the manipulation of numbers and the solving of mathematical problems in daily life and academic situations. limited capacity ca23d481f2
