

Ultrarex Uxd P Esab

It combines the results of advanced researches of industry development: equipment and technologies in the field of various sciences – both technical and humanitarian, the synthesis of which allowed forming a holistic meta-scientific concept of industry development: equipment and technologies. In the second part, organizational and managerial problems and ways of industry development: equipment and technologies are disclosed. This book is a reflection of the modern scientific view of current and future problems and prospects of industry development: equipment and technologies. The book combines the best works presented at the International Research and Practice Conference\ " Actual Problems and Ways of Industry Development: Equipment and Technologies\ . The book consists of two parts. The industry development: equipment and technologies were studied: a view from the standpoint of economics and management, legal barriers to the industry development: equipment: and technologies and the prospects for overcoming them, the impact of globalization on the industry development: equipment: and technologies and recommendations for managing internationalization, as well as social issues of industry development: equipment and technologies in the aspect of human resource's training and management. The first part reflects technical problems and ways of industry development: equipment and technologies. It examines the promising technologies for modern industrial development, the technogenic factors of neo-industrialization in the context of digital economy, strategic guidelines for the industry development: equipment and technologies from the standpoint of sustainable development, as well as integration mechanisms for the industry development: equipment and technologies, and scientific support for their activation 14e1f1f406
