Merrill's Marauders their K ration cigarettes for rice  
and other foods. The unit became famous for its

deep-penetration missions behind Japanese lines, often engaging Japanese forces superior in number. On 17 May 1944, after a grueling 100-kilometre (62 mi) march over the 2,000-metre (6,600 ft) Kumon Mountain Merrill's Marauders (named after Frank Merrill) or Unit Galahad, officially named the 5307th Composite Unit (Provisional), was a United States Army long range penetration special operations jungle warfare unit, which fought in the Southeast Asian theater of World War II, or China-Burma-India Theater (CBI)

Exercise (mathematics) The topic of trigonometry gains many of its exercises from the trigonometric identities. In his program, a student does not proceed before mastery of each level of exercise. At the Russian A mathematical exercise is a routine application of algebra or other mathematics to a stated challenge. Early exercises deal with addition, subtraction, multiplication, and division of integers. Various approaches to geometry have based exercises on relations of angles, segments, and triangles. In college mathematics exercises often depend on functions of a real variable or application of theorems. Extensive courses of exercises in school extend such arithmetic to rational numbers. The standard exercises of calculus involve finding derivatives and integrals of specified functions. Mathematics teachers assign mathematical exercises to develop the skills of their students. the

After-school activity Test preparation, including

Kaplan, Princeton After-school activities, also

known as after-school programs or after-school

care, started in the early 1900s mainly just as

supervision of students after the final school bell.

Some programs are run by a primary or secondary

school, while others are run by externally funded

non-profit or commercial organizations. There is a focus on helping students with school work but can be beneficial to students in other ways. Today, after-school programs do much more. An after-school program, today, will not limit its focus on academics but with a holistic sense of helping the student population. An after-school activity is any organized program that youth or adult learner voluntary can participate in outside of the traditional school day. including painting, drawing, crafts Gifted/remedial education, including Kumon for literacy, mathematics, etc. After-school youth programs can occur inside a school building
