(born 21 January 1944) is a German businessman who is the co-founder of SAP SE software company b513266472

There are different applications and functions of "citizen science" in... b513266472 Social justice " Other noted exponents are Leonardo Boff of Brazil, Carlos Mugica of Argentina, Jon Sobrino of El Salvador Social justice is justice in relation to the distribution of wealth, opportunities, and privileges within a society where individuals' rights are recognized and protected. The relevant institutions often include taxation, social insurance, public health, public school, public services, labor. In Western and Asian cultures, the concept of social justice has often referred to the process of ensuring that individuals fulfill their societal roles and receive their due from society. Social justice

assigns rights and duties in the institutions of society, which enables people to receive the basic benefits and burdens of cooperation. the use of Marxian theory is quite evident. In the current movements for social justice, the emphasis has been on the breaking of barriers for social mobility, the creation of safety nets, and economic justice b513266472

For example, a G nucleotide present at a specific location in a reference genome may be replaced by an A in a minority of individuals. The two possible nucleotide variations of this SNP – G or A – are called alleles. b513266472
